Sales reached a new milestone, rising above US\$100 million for the first time. Healthy year-end demand boosted sales with shipments to data-center customers rising but shipments to electrical appliance customers slowing while shipments to customers in our other segments staying stable.

We remain optimistic about our shipment outlook for customers within semiconductors, electric vehicles, and within IT, including data-center.

- Industrial: overall shipments were stable.
- IT DataComm: shipments to data-center customers rose.
- Automotive: overall shipments were similar to last month.
