Issued on: September 11, 2024

TAIPEI, September 11, 2024 – BizLink Holding Inc., a leading global interconnect solutions provider, announced today that it has signed a definitive purchase agreement to wholly acquire Easys s. r. o. for an enterprise value of Euro 51.5 million. This deal is expected to close during the last quarter of 2024.

The enterprise, Electronic Wallisch GMBH, was first established in 1999 in Villach/Austria with production of sub-supplier parts and switching cabinets for the semiconductor industry as the main focus. Production was later expanded and Easys k.s. was founded in 2005 in Trencin/Slovakia. Easys has established a strong track record with their SPE client base.

Roger Liang, Chairman of BizLink’s Board of Directors, views this as an attractive opportunity to bolster strategic plans to attract and win even more high-value assembly projects from the semiconductor industry across more regions. With this transaction, BizLink will integrate Easys into the Industrial business segment, potentially helping to make the capital equipment category become the largest contributor of the segment and further improve overall operating performance.
